BlankThe purpose of this email is to communicate my complete dissatisfaction with the ongoing anti-trust case against Microsoft. While I have my complaints against Microsoft and its products, it seems inconceivable to me that the company would be litigated against for being a monopoly. This is simply ludicrous, in my opinion. In fact, I believe this case has done tremendous harm to those in our community who take the risks and innovate. The outcome of this case applies to everyone, not just Microsoft.

I don't know whether Bill Gates contributed to Bill Clinton's campaign or not, but it seems clear to me that this misuse of governmental power is abusive and harmful to the public and it is my strongest position that the case should be ended now with an apology issued to Microsoft for all the harm it has caused and another apology to the public for the waste of taxpayer dollars used to litigate this case. This applies to the states that continue to litigate as well.
